SUMMARY

Full Stack Developer with 3+ years of experience building TypeScript/Next.js web apps and AI-powered tools for SMBs and government clients. Delivered a legal case management system for the Sindh Education Department, improved client Lighthouse scores, and cut post-launch bugs through Jest testing and CI/CD. Proficient in Node.js, MongoDB, PostgreSQL, Supabase, Firebase, Docker, and GitHub Actions, with hands-on experience deploying on GCP, AWS, and Azure cloud platforms. Skilled in agentic AI, prompt engineering, and chatbot integration, with certifications completed through Google (AI Studio, Firebase) and the PIAIC Agentic AI program. Comfortable working in Agile/Scrum team environments.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Nexiler | Full-time **Feb 2026 - Sep 2026**

- Boosted client lead inquiry rates by building AI-integrated automation pipelines and TypeScript/Next.js web solutions deployed via CI/CD on Vercel.
- Improved average Lighthouse scores from 58 to 91 across 6 client sites through performance optimization and SEO-focused development.

Full Stack Developer | Syntrix Solutions | Full-time **Jan 2025 - Jan 2026**

- Led full-stack delivery of a legal dashboard for all Sindh Education Department staff using Next.js, MongoDB, and JWT-based role access control.
- Reduced team onboarding time by establishing TypeScript coding standards, Git conventions, and scalable system architecture.

Freelance Full Stack Developer | Part-time **Jan 2023 - Present**

- Built a Laboratory Management System with online receipt and report generation for a private client.
- Delivered full-stack and SQL-based web solutions for clients via referrals.

Full Stack Developer | Virtuo Edge | Full-time **Dec 2022 - Dec 2024**

- Shipped full-stack features over 2+ years using Next.js, Node.js, MongoDB, Firebase and REST APIs.
- Maintained code quality through peer reviews, Jest testing and Git version control across production projects.

KEY PROJECT

Sindh Government Education Department | Legal Dashboard

- Full-stack internal tool for legal case and document management. Stack: Next.js, Node.js, MongoDB.
